Dallas Regional Office

600 North Pearl Street, Suite 700
Dallas, Texas 75201

This document is an evaluation of this institution's record of meeting the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with safe and sound operation of the institution. This evaluation is not, nor should it be construed as, an assessment of the financial condition of this institution. The rating assigned to this institution does not represent an analysis, conclusion, or opinion of the federal financial supervisory agency concerning the safety and soundness of this financial institution.

INSTITUTION RATING

INSTITUTION'S CRA RATING: This institution is rated **Satisfactory**.

An institution in this group has a satisfactory record of helping to meet the credit needs of its assessment areas (AAs), including low- and moderate-income neighborhoods, in a manner consistent with its resources and capabilities

The Lending Test is rated Satisfactory.

- The loan-to-deposit ratio (LTD) is reasonable (considering seasonal variations and taking into account lending-related activities), given the institution's size, financial condition, and AAs' credit needs.
- A majority of loans are in the institution's AAs.
- The geographic distribution of loans reflects reasonable dispersion throughout the AAs.
- The distribution of borrowers reflects, given the demographics of the AAs, reasonable penetration among individuals of different income levels and businesses of different sizes.
- The institution did not receive any CRA-related complaints since the previous evaluation; therefore, this criterion did not affect the Lending Test rating.

The Community Development Test is rated Outstanding.

The institution's community development (CD) performance demonstrates excellent responsiveness to CD needs in its AAs through CD loans, qualified investments (QIs), and CD services, as appropriate, considering the institution's capacity and the need and availability of such opportunities for CD in the institution's AAs.

DESCRIPTION OF INSTITUTION

First Bank & Trust Co. (FBT) maintains its headquarters in Duncan, Oklahoma, and is privately owned. The bank received a Satisfactory rating at its June 8, 2020 FDIC Performance Evaluation based on Intermediate Small Bank Procedures.

FBT functions as a retail bank operating 12 full-service branches and 1 limited-service, drive-thru location in Oklahoma. Since the previous evaluation, the bank converted a loan production office located in an upper-income census tract in Edmond into a full-service branch. The bank also acquired Stroud National Bank, Stroud, Oklahoma, on June 29, 2021. This acquisition added a full-service branch (Wellston) located in a moderate-income census tract and two full-service branches (Stroud and Perkins) located in middle-income census tracts.

The bank offers various loan products including commercial, home mortgage, agricultural, and consumer loans, primarily focusing on commercial and home mortgage lending. The institution also offered loans through the Small Business Administration (SBA) Paycheck Protection Program (PPP) and originated 726 PPP loans totaling approximately \$16.1 million during the evaluation period. The SBA, with support from the Department of the Treasury, implemented the PPP, which provides loans to encourage qualified businesses that meet certain standards established by the SBA to retain employees through the COVID-19 pandemic. The program includes loan forgiveness subject to certain conditions.

The bank provides a variety of deposit products including checking, savings, and certificate of deposit accounts. Alternative banking services include internet and mobile banking, electronic bill pay, and 13 bank-owned automated teller machines (ATMs).

As of March 31, 2023, the institution's assets totaled approximately \$838.8 million, total loans equaled \$690.3 million, and total deposits equaled \$726.9 million. Since the prior evaluation, total assets increased by 45.3 percent, total loans increased by 47.3 percent, and total deposits increased by 50.9 percent primarily due to the acquisition noted previously.

The following table illustrates the outstanding loan portfolio as of March 31, 2023, reflecting a distribution supportive of the institution's business focus, with commercial loans and home mortgage loans representing the largest portions of the loan portfolio.

Loan Portfolio Distribution as of 3/31/2023		
Loan Category	\$(000s)	%
Construction, Land Development, and Other Land Loans	88,221	12.8
Secured by Farmland	73,315	10.6
Secured by 1-4 Family Residential Properties	179,942	26.1
Secured by Multifamily (5 or more) Residential Properties	45,471	6.6
Secured by Nonfarm Nonresidential Properties	248,675	36.0
Total Real Estate Loans	635,624	92.1
Commercial and Industrial Loans	27,494	4.0
Agricultural Production and Other Loans to Farmers	5,272	0.8
Consumer Loans	19,580	2.8
Obligations of State and Political Subdivisions in the U.S.	2,300	0.3
Other Loans	1	<0.1
Lease Financing Receivable (net of unearned income)	0	0.0
Less: Unearned Income	0	0.0
Total Loans	690,271	100.0
<i>Source: Reports of Condition and Income. Due to rounding, totals may not equal 100.0.</i>		

Examiners did not identify any financial, legal, or other impediments that affect the institution’s ability to meet its AAs’ credit needs.

DESCRIPTION OF ASSESSMENT AREAS

FBT delineated a portion of the Oklahoma City, Oklahoma Metropolitan Statistical Area (MSA) and portions of the Oklahoma Non-MSA as its AAs. The bank’s AAs meet the technical requirements of the CRA. The following table provides additional details regarding the AAs. Refer to the individual AAs’ sections for additional details.

Description of Assessment Areas			
Assessment Area	Counties in Assessment Area	# of CTs	# of Branches
Oklahoma City MSA	Cleveland, Lincoln, and Oklahoma	345	5
Oklahoma Non-MSA	Carter, Jefferson, Payne*, and Stephens	53	7
<i>Source: Bank Data; 2020 U.S. Census Data. *Non-contiguous county.</i>			

SCOPE OF EVALUATION

General Information

This evaluation covers the period from the prior evaluation dated June 8, 2020, to the current evaluation dated July 31, 2023. Examiners used Intermediate Small Bank Procedures to evaluate FBT’s CRA performance. These procedures include two tests: the Lending Test and the Community Development Test. The appendix lists each tests’ criteria.

Examiners applied full-scope procedures to both AAs due to the addition of new branches and AA changes resulting from the acquisition. Based on the concentration of loans typically considered for CRA as well as volume of deposits and branches noted in the following table, examiners weighed performance more heavily in the Oklahoma Non-MSA AA when arriving at conclusions and the rating.

Assessment Area Breakdown of Loans, Deposits, and Branches						
Assessment Area	Loans		Deposits		Branches	
	\$(000s)	%	\$(000s)	%	#	%
Oklahoma Non-MSA	76,238	58.3	563,435	81.0	7	58.3
Oklahoma City MSA	54,511	41.7	132,528	19.0	5	41.7
Total	130,749	100.0	695,963	100.0	12	100.0

Source: 2022 Bank Data; FDIC Summary of Deposits (6/30/2022). Due to rounding, totals may not equal 100.0.

Activities Reviewed

Intermediate Small Bank Procedures require examiners to determine the bank’s major product lines from which to review. Examiners may select from the same loan categories used for Large Bank evaluations: home mortgage, small business, small farm, and consumer loans. The following table shows bank lending activity for 2022.

Loans Originated or Purchased				
Loan Category	\$(000s)	%	#	%
Construction and Land Development	87,633	26.5	132	8.6
Secured by Farmland	36,898	11.1	62	4.1
Secured by 1-4 Family Residential Properties	65,494	19.8	367	24.0
Multi-Family (5 or more) Residential Properties	12,754	3.9	9	0.6
Commercial Real Estate Loans	95,140	28.7	67	4.4
Commercial and Industrial Loans	19,681	5.9	237	15.5
Agricultural Loans	1,956	0.6	39	2.5
Consumer Loans	10,984	3.3	614	40.2
Other Loans	673	0.2	1	0.1
Total Loans	331,213	100.0	1,528	100.0

Source: 2022 Bank Data. Due to rounding, totals may not equal 100.0.

Considering the dollar volume and number of loans originated, as well as management’s stated business strategy, examiners determined the bank’s major product lines consist of commercial and home mortgage lending. Since the other categories typically reviewed for CRA do not represent major product lines, considering both number and dollar, they would not materially affect any conclusions or ratings. Therefore, this evaluation does not include a review of them. Bank records indicate that the lending focus and product mix remained generally consistent throughout the evaluation period.

FBT reports home mortgage loans pursuant to the Home Mortgage Disclosure Act (HMDA). Therefore, for the Lending Test this evaluation includes a review of all home mortgage loans reported on the bank’s 2020, 2021, and 2022 HMDA Loan Application Registers (LARs), as follows:

- 2020: 389 home mortgage loans totaling \$54.4 million,
- 2021: 300 home mortgage loans totaling \$47.8 million, and
- 2022: 317 home mortgage loans totaling \$63.1 million.

Available aggregate data served as the primary standard of comparison for home mortgage loans. Examiners did not identify any trends in performance between the years reviewed that would materially affect conclusions. Therefore, the geographic distribution and borrower profile analyses present home mortgage loan data for 2021, the most recent year for which aggregate data exists. However, the AA Concentration presents home mortgage loan data for all years reviewed.

This evaluation also includes a review of the following small business loans originated or purchased in 2022 for the noted performance factors, which represents the most recent completed calendar year of available data:

- Assessment Area Concentration – universe of 286 small business loans totaling \$31.9 million;
- Geographic Distribution – universe of 212 small business loans totaling \$21.6 million originated in the bank’s AAs; and
- Borrower Profile – sample of 143 small business loans totaling \$14.2 million taken from the universe of small business loans originated in the bank’s AAs.

D&B data for 2022 provided a standard comparison for small business loans.

Examiners considered the universe of small business and home mortgage loans when determining loan product weighting. The following table shows that home mortgage loans represent a majority by number and dollar of the loan categories reviewed. Therefore, home mortgage loans received slightly more weight when arriving at a conclusion for the AA concentration. However, upon further review when considering the distribution of loans in each AA, small business loans received more weight in the Oklahoma City MSA AA, while home mortgage loans received more weight in the Oklahoma Non-MSA AA.

Loan Products Reviewed				
Loan Category	Universe			
	#	%	\$(000s)	%
Home Mortgage	317	52.6	63,070	66.4
Small Business	286	47.4	31,924	33.6
Total Loans	603	100.0	94,994	100.0

Source: 2022 HMDA LAR and 2022 Bank Data. Due to rounding, totals may not equal 100.0.

While the evaluation presents both the number and dollar volume of loans, examiners emphasized performance by number of loans when arriving at conclusions for the performance factors because the number of loans better indicates the number of businesses and individuals served.

For the Community Development Test, the scope of the evaluation includes data provided by bank management on CD loans, QIs, and CD services since the prior evaluation. The evaluation of QIs also considers the book value of prior period QIs that remain outstanding as of this evaluation’s date.

CONCLUSIONS ON PERFORMANCE CRITERIA

LENDING TEST

FBT demonstrated satisfactory performance regarding the Lending Test. A reasonable LTD ratio, reasonable records regarding geographic distribution and borrower profile, and a majority of loans originated inside the AAs support this conclusion.

Loan-to-Deposit Ratio

The LTD ratio is reasonable given the institution’s size, financial condition, and AAs’ credit needs. The LTD ratio, calculated from Call Report data averaged 86.6 percent over the past 12 calendar quarters from June 30, 2020, to March 31, 2023, which slightly decreased from the 87.1 percent average net LTD ratio reported at the previous evaluation. The ratio ranged from a low of 77.8 percent as of March 31, 2022 to a high of 93.7 percent as of March 31, 2023.

Examiners identified and listed in the following table comparable institutions operating in similar areas, with comparable asset sizes and lending emphases. As illustrated, FBT’s average net LTD ratio remains within a reasonable range of the comparable institutions.

Loan-to-Deposit (LTD) Ratio Comparison		
Bank	Total Assets as of 3/31/2023 (\$000s)	Average Net LTD Ratio (%)
First Bank & Trust Co. – Duncan, OK	838,838	86.6
First National Bank of Oklahoma – Oklahoma City, OK	767,028	83.3
F&M Bank – Edmond, OK	674,410	69.4
Frist National Bank and Trust – Ardmore, OK	674,492	68.8
<i>Source: Reports of Condition and Income 6/30/2020 – 3/31/2023.</i>		

Assessment Area Concentration

A majority of loans are in the institution’s AAs. The following table shows that FBT originated a majority of home mortgage and small business loans, by number and dollar volume, in the AAs.

Lending Inside and Outside of the Assessment Area										
Loan Category	Number of Loans				Total	Dollar Amount of Loans \$(000s)				
	Inside		Outside			Inside		Outside		Total
	#	%	#	%	#	\$	%	\$	%	\$(000s)
Home Mortgage										
2020	329	84.6	60	15.4	389	35,201	64.7	19,182	35.3	54,383
2021	238	79.3	62	20.7	300	28,968	60.6	18,872	39.4	47,840
2022	242	76.3	75	23.7	317	41,316	65.5	21,754	34.5	63,070
Subtotal	809	80.4	197	19.6	1,006	105,485	63.8	59,808	36.2	165,293
Small Business	212	74.1	74	25.9	286	21,619	67.7	10,305	32.3	31,924

Source: HMDA Reported Data; 2022 Bank Data. Due to rounding, totals may not equal 100.0.

Geographic Distribution

The geographic distribution of loans reflects reasonable dispersion throughout the AAs. Reasonable performance in the Oklahoma Non-MSA AA outweighs poor performance in the Oklahoma City MSA AA to support this conclusion. Examiners focused on the percentage by number of loans in low- and moderate-income census tracts within the AAs when arriving at conclusions for this performance factor.

Borrower Profile

The distribution of borrowers reflects, given the demographics of the AAs, reasonable penetration among individuals of different income levels and businesses of different sizes. Reasonable records in the Oklahoma Non-MSA AA and the Oklahoma City MSA AA support this conclusion. Examiners focused on the percentage by number of loans to low- and moderate-income individuals and to businesses with gross annual revenue of \$1 million or less within the AAs when arriving at conclusions for this performance factor.

Response to Complaints

The institution did not receive any CRA-related complaints since the previous evaluation; therefore, this criterion did not affect the Lending Test rating.

COMMUNITY DEVELOPMENT TEST

FBT demonstrated an outstanding record regarding the Community Development Test. The institution’s CD performance demonstrates excellent responsiveness to CD needs in its AAs through CD loans, QIs, and CD services as appropriate, considering the institution’s capacity and the need and availability of such opportunities for CD in the institution’s AAs. Examiners also

considered CD activities within the broader statewide/regional area since the bank proved responsive to the needs of its AAs.

Community Development Loans

The following table shows that since the prior evaluation, the bank originated 25 CD loans totaling \$90.8 million. This level equates to 12.1 percent of average total assets of \$749.8 million since the prior evaluation and 15.9 percent of average net loans of \$570.7 million for the same timeframe. These notable levels reflect an increase from the 9.2 percent of average total assets and 12.3 percent of average net loans reported at the previous evaluation.

The CD loans proved highly responsive to the areas’ needs given that a significant majority of activities supported economic development and community services, both of which represent significant identified CD needs in the AAs. The following tables illustrate the bank’s CD lending by AA, purpose, and year.

Community Development Lending by Year										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals	
	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)

Source: Bank Data.

The following lists an example of a CD loan benefitting the broader statewide area.

- **Economic Development** – In 2022, the bank originated a loan for \$2.4 million to purchase and renovate a hotel resort property. The hotel’s purpose supports the community by providing jobs to low- and moderate-income individuals in the area. The activity promotes economic development by financing an entity that meets the size eligibility standards of the regulation and by supporting permanent job creation, retention, and improvement for low- and moderate-income persons in the hospitality industry.

Qualified Investments

The bank made use of 92 QIs totaling approximately \$3.0 million. The total dollar volume equates to 0.4 percent of average total assets of \$749.8 million and 3.4 percent of average total securities of \$88.0 million. These levels reflect an increase from the 0.1 percent of average total assets and 0.8 percent of average total securities recorded at the prior evaluation.

As reflected in the following tables, the QIs primarily supported revitalization and stabilization efforts and community services. Community services represent an identified need of both AAs, and this shows the bank’s adequate responsiveness in addressing CD needs. The following tables illustrate the bank’s QIs by AA, purpose, and year.

Qualified Investments by Year										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals

Source: Bank Data.

The following lists an example of a QI benefitting the broader statewide area.

- **Community Services** – The bank made a \$350,000 investment in school bonds in a district in Oklahoma, where a majority of students received free or reduced lunches. The investment benefits an organization that provides community services, in the form of educational services, targeted to low- and moderate-income individuals.

Community Development Services

The following table shows FBT provided 53 CD services since the prior evaluation. This level reflects a decrease over the 126 CD services at the prior evaluation. The services involve bank personnel’s use of their technical expertise to benefit organizations or projects in the AAs with a primary purpose of CD, as defined by the CRA regulation. Nearly all of the CD services benefited community service organizations that provide services to low- and moderate-income individuals, which demonstrate the bank’s notable responsiveness to an identified CD need in both AAs. The following tables detail the bank’s CD services by AA, purpose, and year.

Community Development Services by Year					
Activity Year	Affordable Housing	Community Services	Economic Development	Revitalize or Stabilize	Totals
	#	#	#	#	#
2020*	0	2	1	0	3
2021	0	9	1	0	10

Oklahoma City MSA	0	10	0	0	10
Oklahoma Non-MSA	0	37	6	0	43
Total	0	47	6	0	53

Source: Bank Data.

Regarding the availability of services, the bank operates two branches and two ATMs in moderate-income census tracts. Additionally, the bank provides alternative delivery systems such as internet, mobile, and telephone banking as well as electronic bill pay that help avail the bank’s services to low- and moderate-income individuals and geographies across all portions of the AAs.

DISCRIMINATORY OR OTHER ILLEGAL CREDIT PRACTICES REVIEW

The bank’s compliance with the laws relating to discrimination and other illegal credit practices was reviewed, including the Fair Housing Act and the Equal Credit Opportunity Act. Examiners did not identify any discriminatory or other illegal credit practices.

OKLAHOMA NON-MSA AA – Full-Scope Review

DESCRIPTION OF INSTITUTION’S OPERATIONS IN OKLAHOMA NON-MSA AA

The combined Oklahoma Non-MSA AA includes all of Carter, Jefferson, Payne, and Stephens counties. The combined AA consists of two non-contiguous AAs: Carter, Jefferson, and Stephens counties located in southcentral Oklahoma and Payne County located in northcentral Oklahoma. This reflects a change since the previous evaluation with the designation of Payne County as an AA due to the acquisition of the Perkins branch of Stroud National Bank. Since examiners did not identify any anomalies in performance between the separate non-MSA AAs, this evaluation combines them for presentation purposes.

The AA also includes 11 additional census tracts, 5 of which are designated moderate-income census tracts, since the prior evaluation due to changes resulting from the 2020 U.S. Census Data. The bank operates seven full-service locations, eight ATMs, and a limited-service, drive-thru location in the AA. The branches maintain hours consistent with the area and the industry. The delivery systems and range of products and services remain consistent with those reflected in the overall Description of Institution Section of this performance evaluation.

Economic and Demographic Data

Based on 2020 U.S. Census Data, the AA’s 53 census tracts include the following income designations: 2 low-, 13 moderate-, 21 middle-, and 15 upper-income census tracts, as well as 2 census tracts without an income designation. The following table provides select demographic characteristics for this AA.

Demographic Information of the Assessment Area Oklahoma Non-MSA AA						
Demographic Characteristics	#	Low % of #	Moderate % of #	Middle % of #	Upper % of #	NA* % of #
Geographies (Census Tracts)	53	3.8	24.5	39.6	28.3	3.8
Population by Geography	177,834	1.8	20.6	39.8	35.1	2.7
Housing Units by Geography	82,469	2.3	20.7	41.9	32.9	2.2
Owner-Occupied Units by Geography	42,750	0.0	14.4	43.6	41.7	0.3
Occupied Rental Units by Geography	26,059	5.5	27.5	38.5	24.0	4.5

Median Family Income – OK Non-MSA	\$58,565		Median Housing Value			\$129,085
			Median Gross Rent			\$795
			Families Below Poverty Level			12.0%

*Source: 2020 U.S. Census Data and 2022 D&B Data. Due to rounding, totals may not equal 100.0.
(*) The NA category consists of geographies that have not been assigned an income classification.*

FEMA made disaster declarations affecting all AA counties on December 21, 2020, due to severe ice storms and on February 24, 2021, due to severe winter storms. According to the Duncan Area Economic Development Foundation, major employers in the area include Duncan Regional Hospital, Halliburton, Family Dollar, Walmart, and Duncan Public Schools. The following table shows annual unemployment rates over the evaluation period for the AA, State of Oklahoma, and nationwide, which show a decline since the onset of the COVID-19 pandemic in 2020.

Unemployment Rates			
Area	2020	2021	2022
	%	%	%
Carter County	5.4	3.0	3.0
Jefferson County	5.6	2.4	2.9
Payne County	4.2	2.1	2.3
Stephens County	6.8	2.8	2.9
State of Oklahoma	5.1	2.5	2.6
National Average	6.7	3.9	3.5

Examiners used the applicable FFIEC-updated median family income levels to analyze home mortgage loans under the borrower profile criterion. The following table presents the low-, moderate-, middle-, and upper-income ranges based on the 2021 FFIEC-updated median family income of \$58,100 for the Oklahoma Non-MSA.

Median Family Income Ranges – Oklahoma Non-MSA				
Median Family Incomes	Low <50%	Moderate 50% to <80%	Middle 80% to <120%	Upper ≥120%
2021 (\$58,100)	<\$29,050	\$29,050 to <\$46,480	\$46,480 to <\$69,720	≥\$69,720
<i>Source: FFIEC.</i>				

Competition

The AA reflects a moderate level of competition for financial services based on the AA’s population. According to the FDIC Deposit Market Share report as of June 30, 2022, 27 institutions operate 78 offices within the bank’s AA. Of these institutions, FBT ranked third with an 11.0 percent market share.

Credit and Community Development Needs and Opportunities

Considering information obtained from bank management, as well as demographic and economic data, examiners concluded the primary credit needs of the AA include home mortgage and small business loans.

Regarding the area’s CD needs, demographic data shows 35.8 percent of the area’s families reported low or moderate incomes, which suggests a need for activities that provide community services to these families. Additionally, demographic data reflecting only 19.1 percent of the AA’s businesses operate in low- or moderate- income census tracts suggests a CD need for economic development in these areas of the AA.

CONCLUSIONS ON PERFORMANCE CRITERIA IN OKLAHOMA NON-MSA AA

LENDING TEST

FBT demonstrated a satisfactory record regarding the Lending Test in the Oklahoma Non-MSA AA. Reasonable records regarding geographic distribution and borrower profile support this conclusion.

Geographic Distribution

The geographic distribution of loans reflects reasonable dispersion throughout the Oklahoma Non-MSA AA. Reasonable performance regarding home mortgage lending outweighs poor performance regarding small business lending to support this conclusion.

Home Mortgage Loans

The geographic distribution of home mortgage loans reflects reasonable dispersion throughout the AA. Reasonable performance in low- and moderate-income census tracts supports this conclusion. The following table shows that the bank did not originate loans in low-income census tracts; however, this falls only slightly below aggregate performance of 0.6 percent and evidences reasonable performance. The bank’s level of lending in moderate-income census tracts falls below aggregate performance by 3.8 percentage points, yet remains within a reasonable range.

Geographic Distribution of Home Mortgage Loans Oklahoma Non-MSA AA						
Tract Income Level	% of Owner-Occupied Housing Units	Aggregate Performance % of #	#	%	\$(000s)	%
Low	0.2	0.6	0	0.0	0	0.0
Moderate	12.5	12.0	15	8.2	1,996	12.0
Middle	53.9	46.4	120	65.6	9,135	55.0
Upper	33.4	41.1	48	26.2	5,474	33.0
Not Available	0.0	0.0	0	0.0	0	0.0
Total	100.0	100.0	183	100.0	16,605	100.0

Source: 2015 ACS Data; 2021 HMDA LAR and Aggregate Data. Due to rounding, totals may not equal 100.0.

Small Business Loans

The geographic distribution of small business loans reflects poor dispersion throughout the AA. Poor performance in moderate-income census tracts outweighs reasonable performance in low-income census tracts to support this conclusion. The following table shows that the bank did not originate loans in low-income census tracts. However, this reflects reasonable performance when considering the demographic data shows only 2.6 percent of businesses are located in these tracts. The bank's level of lending in moderate-income census tracts falls 9.0 percentage points below demographic data, reflecting poor performance. Examiners placed more weight on performance in moderate-income census tracts due to the increased opportunity to lend given the larger percentage of businesses located in these tracts.

Geographic Distribution of Small Business Loans Oklahoma Non-MSA AA					
Tract Income Level	% of Businesses	#	%	\$(000s)	%
Low	2.6	0	0.0	0	0.0
Moderate	16.5	10	7.5	474	5.4

Borrower Profile

The distribution of borrowers reflects, given the demographics of the AA, reasonable penetration among individuals of different income levels and businesses of different sizes. Reasonable home mortgage and small business lending performance supports this conclusion.

Home Mortgage Loans

The distribution of borrowers reflects reasonable penetration among individuals of different income levels. Reasonable records to low- and moderate-income borrowers support this conclusion. The following table shows the bank's level of lending to low-income borrowers rises above aggregate

performance by 7.9 percentage points, reflecting reasonable performance. The bank’s level of lending in moderate-income census tracts rises above aggregate performance by 9.0 percentage points, yet remains within a reasonable range.

Distribution of Home Mortgage Loans by Borrower Income Level Oklahoma Non-MSA AA						
Borrower Income Level	% of Families	Aggregate Performance % of #	#	%	\$(000s)	%
Low	19.2	3.0	20	10.9	1,052	6.3

Small Business Loans

The distribution of borrowers reflects reasonable penetration among businesses of different sizes. As shown in the following table, the bank originated more than seven out of every ten small business loans to businesses with gross annual revenue of \$1 million or less, evidencing reasonable performance.

Distribution of Small Business Loans by Gross Annual Revenue Category Oklahoma Non-MSA AA					
Gross Revenue Level	% of Businesses	#	%	\$(000s)	%
< \$100,000	64.7	35	36.8	2,153	33.6
\$100,000 - \$249,999	15.4	24	25.3	831	13.0

COMMUNITY DEVELOPMENT TEST

FBT demonstrated a satisfactory record regarding the Community Development Test in the Oklahoma Non-MSA AA. The institution’s CD performance demonstrates adequate responsiveness to CD needs in the AA through CD loans, CD services, and QIs, as appropriate considering the institution’s capacity and the need and availability of such opportunities for CD in the institution’s AA.

Community Development Loans

As reflected in the table at the institution level, the bank originated 12 CD loans totaling \$47.0 million in the Oklahoma Non-MSA AA. This reflects a significant increase in dollar volume from the 22 CD loans totaling approximately \$2.4 million at the previous evaluation. The current dollar amount equates to 51.7 percent of the institution's total CD loans compared to this area generating 58.3 percent of total loans.

The following lists an example of a CD loan in the Oklahoma Non-MSA AA.

- ***Economic Development*** – In 2022, the bank originated a \$14.2 million loan for the construction of a shopping center complex in a moderate-income census tract. The shopping center supports the community by providing jobs to low- and moderate-income individuals in the area.

Qualified Investments

As reflected previously at the institution level, the bank made use of 65 QIs totaling \$430,000 in the Oklahoma Non-MSA AA. This reflects a slight increase in number, but a decrease in dollar volume from the 58 QIs totaling \$602,000 reported in the prior evaluation. The total dollar amount represents 31.9 percent of the bank's QIs inside its AAs and 14.4 percent of the bank's total QIs. As noted, this AA contained 81.0 percent of the bank's total deposits.

The following lists an example of a QI in the Oklahoma Non-MSA AA.

- ***Community Services*** – The bank made an \$185,000 investment in school bonds in a Payne County school district primarily serving low- or moderate-income individuals since a majority of students receive free and/or reduced lunches.

Community Development Services

As reflected previously at the institution level, the bank provided 43 CD services in the Oklahoma Non-MSA AA. This reflects a decrease from the 90 CD services in this AA noted at the prior evaluation. This current level represents 81.1 percent of the bank's total CD services, while this AA contains 58.3 percent of the bank's total branches.

The following lists an example of a CD service in the Oklahoma Non-MSA AA.

- ***Economic Development*** – A bank employee serves on the Board of a local economic development organization that benefits low- and moderate-income areas of the city.

FBT operates one branch and one ATM in a moderate-income census tract in this AA. The alternative delivery systems in the Oklahoma Non-MSA AA remain consistent with that discussed at the institution level.

OKLAHOMA CITY MSA AA – Full-Scope Review

DESCRIPTION OF INSTITUTION’S OPERATIONS IN OKLAHOMA CITY MSA AA

The Oklahoma City MSA AA includes all of Cleveland, Lincoln, and Oklahoma counties, which represent three of the seven counties that comprise the Oklahoma City MSA in central Oklahoma. This reflects a change since the previous evaluation with the addition of Lincoln County to the AA due to the acquisition of the Wellston and Stroud branches of Stroud National Bank. This AA also includes 35 additional census tracts, which includes a decrease of two moderate-income census tracts, since the prior evaluation due to changes resulting from the 2020 U.S. Census Data. The bank operates five full-service locations and five ATMs in this AA. The branches maintain hours consistent with the area and the industry. The delivery systems and range of products and services remain consistent with those reflected in the overall Description of Institution Section of this performance evaluation.

Economic and Demographic Data

Based on 2020 U.S. Census Data, the AA’s 345 census tracts include the following income designations: 28 low-, 95 moderate-, 116 middle-, and 87 upper-income census tracts, as well as 19 census tracts without an income designation. The following table provides select demographic characteristics for this AA.

Demographic Information of the Assessment Area Oklahoma City MSA AA						
Demographic Characteristics	#	Low % of #	Moderate % of #	Middle % of #	Upper % of #	NA* % of #
Geographies (Census Tracts)	345	8.1	27.5	33.6	25.2	5.5

FEMA made disaster declarations affecting all AA counties on December 21, 2020, due to severe ice storms and on February 24, 2021, due to severe winter storms. According to Moody’s Analytics, the Oklahoma City MSA AA’s largest employers include Tinker Air Force Base, University of Oklahoma – Norman, Integris Health, University of Oklahoma Health Sciences Center, and FAA Mike Monroney Aeronautical Center. The following table shows annual unemployment rates over the evaluation period for the AA, State of Oklahoma, and nationwide, which show a decline since to COVID-19 pandemic in 2020.

Unemployment Rates			
Area	2020	2021	2022
	%	%	%
Cleveland County	4.2	2.0	2.1
Lincoln County	4.8	2.3	2.7
Oklahoma County	5.2	2.4	2.6
State of Oklahoma	5.1	2.5	2.6
National Average	6.7	3.9	3.5

Examiners used the applicable FFIEC-updated median family income levels to analyze home mortgage loans under the borrower profile criterion. The following table presents the low-, moderate-, middle-, and upper-income ranges based on the 2021 FFIEC-updated median family income of \$73,100 for the Oklahoma City MSA.

Median Family Income Ranges – Oklahoma City, OK MSA				
Median Family Incomes	Low <50%	Moderate 50% to <80%	Middle 80% to <120%	Upper ≥120%
2021 (\$73,100)	<\$36,550	\$36,550 to <\$58,480	\$58,480 to <\$87,720	≥\$87,720

Source: FFIEC.

Competition

The AA reflects a relatively low level of competition for financial services based on the AA’s population. According to the FDIC Deposit Market Share report as of June 30, 2022, 67 institutions operate 314 offices within the bank’s AA. Of these institutions, FBT ranked 41st with a 0.3 percent deposit market share. However, mortgage companies, credit unions, and finance companies also compete for loans in the area adding to the competition level.

Community Contact

As part of the evaluation process, examiners obtain information from third parties knowledgeable of the AA to assist in identifying needs of the area. This information helps determine financial institutions’ responsiveness to these needs and shows available credit and CD opportunities. Examiners utilized a community contact from an economic development organization knowledgeable of the area’s business environment to help assess the area’s current economic conditions, community credit needs, and potential opportunities for bank involvement. The contact stated loans for housing, small businesses, and start-ups represent the main credit needs in the area. The contact also stated that high interest rates affect borrowers’ abilities to obtain

financing. The contact indicated financial institutions remain actively involved and willing to work with small businesses and other borrowers throughout the area.

Credit and Community Development Needs and Opportunities

Considering information obtained from the community contact, bank management, as well as demographic and economic data, examiners concluded the primary credit needs of the AA include small business and home mortgage loans.

Regarding the area's CD needs, demographic data shows 40.3 percent of the area's families reported low or moderate incomes, which suggests a significant need for activities that provide community services to these families. Additionally, demographic data reflecting only 28.4 percent of the AA's businesses operate in low- or moderate-income census tracts suggests a CD need for economic development in these areas.

CONCLUSIONS ON PERFORMANCE CRITERIA IN OKLAHOMA CITY MSA AA

LENDING TEST

The bank demonstrated a satisfactory record regarding the Lending Test in the Oklahoma City MSA AA. A reasonable borrower profile outweighs a poor geographic distribution to support this conclusion.

Geographic Distribution

The geographic distribution of loans reflects poor dispersion throughout the Oklahoma City MSA AA. Poor performance regarding small business lending outweighs reasonable performance regarding home mortgage lending to support this conclusion.

Small Business Loans

The geographic distribution of small business loans reflects poor dispersion throughout the AA. Poor performance in moderate-income census tracts outweighs reasonable performance in low-income census tracts to support this conclusion. The following table shows that the bank's lending in low-income census tracts is comparable to demographic data, reflecting reasonable performance. However, the bank's level of lending in moderate-income census tracts falls 14.4 percentage points below demographic data, reflecting poor performance. Examiners placed more weight on performance in moderate-income census tracts given the greater opportunity to lend due to the larger percentage of businesses located in these tracts.

Geographic Distribution of Small Business Loans Oklahoma City MSA AA					
Tract Income Level	% of Businesses	#	%	\$(000s)	%
Low	5.1	4	5.1	440	3.4
Moderate	23.3	7	8.9	450	3.5
Middle	33.2	47	59.5	5,369	42.1

Source: 2022 D&B Data; 2022 Bank Data. Due to rounding, totals may not equal 100.0.

Home Mortgage Loans

The geographic distribution of home mortgage loans reflects reasonable dispersion throughout the AA. Reasonable performance in low- and moderate-income census tracts supports this conclusion. The following table shows that the bank’s level of lending in low-income census tracts only slightly trails aggregate performance by 0.6 percentage points, reflecting reasonable performance. The bank’s level of lending in moderate-income census tracts falls below aggregate performance by 2.6 percentage points, also reflecting reasonable performance.

Geographic Distribution of Home Mortgage Loans Oklahoma City MSA AA

Borrower Profile

The distribution of borrowers reflects, given the demographics of the AA, reasonable penetration among individuals of different income levels and businesses of different sizes. Reasonable home mortgage and small business lending performance supports this conclusion.

Small Business Loans

The distribution of borrowers reflects reasonable penetration among businesses of different sizes. As shown in the following table, the bank originated more than six out of every ten small business loans to businesses with gross annual revenue of \$1 million or less, reflecting reasonable performance.

Distribution of Small Business Loans by Gross Annual Revenue Category Oklahoma City MSA AA					
Gross Revenue Level	% of Businesses	#	%	\$(000s)	%
< \$100,000	72.3	11	22.9	154	2.0
\$100,000 - \$249,999	13.8	7	14.6	967	12.4
\$250,000 - \$499,999	3.3	5	10.4	1,674	21.5
\$500,000 - \$1,000,000	1.8	7	14.6	1,841	23.7
Subtotal ≤ \$1,000,000	91.2	30	62.5	4,636	59.6
> \$1,000,000	2.5	14	29.2	1,764	22.7
Revenue Not Available	6.2	4	8.3	1,373	17.7
Total	100.0	48	100.0	7,773	100.0

Source: 2022 D&B Data; 2022 Bank Data. Due to rounding, totals may not equal 100.0.

Home Mortgage Loans

The distribution of borrowers reflects reasonable penetration among individuals of different income levels. Reasonable performance to low-income borrowers outweighs poor performance to moderate-income borrowers to support this conclusion. The following table shows the bank’s level of lending to low-income borrowers slightly exceeds aggregate performance by 0.6 percentage points, reflecting reasonable performance. The bank’s level of lending to moderate-income borrowers falls below aggregate performance by 12.2 percent, reflecting poor performance. Given the slightly larger percentage of families considered low-income as represented by the demographic data, the analysis placed more weight on lending to low-income borrowers when arriving at an overall conclusion.

Distribution of Home Mortgage Loans by Borrower Income Level Oklahoma City MSA AA						
Borrower Income Level	% of Families	Aggregate Performance % of #	#	%	\$(000s)	%
Low	22.8	4.9	3	5.5	369	3.0

COMMUNITY DEVELOPMENT TEST

FBT demonstrated a satisfactory record regarding the Community Development Test in the Oklahoma City MSA AA. The institution’s CD performance demonstrates adequate responsiveness to CD needs in the Oklahoma City MSA AA through CD loans, CD services, and QIs, as appropriate, considering the institution’s capacity and the need and availability of such opportunities for CD in the institution’s AA.

Community Development Loans

As reflected in the table at the institution level, the bank originated 10 CD loans totaling \$32.7 million in the Oklahoma City MSA AA. This reflects a decrease from the 19 CD loans totaling approximately \$43.6 million at the previous evaluation. The current dollar amount equates to 36.0 percent of the institution's total CD loans compared to this area generating 41.7 percent of total loans.

The following lists an example of a CD loan in the Oklahoma City MSA AA.

- ***Economic Development*** – In 2023, the bank originated a \$2.6 million loan to construct a convenience store in a low-income census tract. The store supports the community by providing jobs to low- and moderate-income individuals in the area.

Qualified Investments

As reflected previously at the institution level, the bank made use of 16 QIs totaling \$916,000 in this AA. This reflects a significant increase in dollar volume from the 16 QIs totaling \$10,000 reported in the prior evaluation. The total dollar amount represents 68.1 percent of the bank's QIs inside its AAs and 30.7 percent of the bank's total QIs. As noted, this AA contained 19.0 percent of the bank's total deposits.

The following lists an example of a QI in the Oklahoma City MSA AA.

- ***Community Services*** – The bank made a \$75,000 investment in bonds for a Cleveland County emergency medical services district, where the community is comprised of approximately 60 percent low- and moderate-income individuals.

Community Development Services

As reflected previously at the institution level, the bank provided 10 CD services in the Oklahoma City MSA AA. This reflects a decrease from the 36 CD services in this AA noted at the prior evaluation. This current level represents 18.9 percent of the bank's total CD services, while this AA contains 41.7 percent of the bank's total branches.

The following lists an example of a CD service in the Oklahoma City MSA AA.

- ***Community Service*** – Bank employees taught financial literacy classes at a school that primarily benefits low- or moderate-income individuals since a majority of students receive free or reduced lunches.

FBT operates one branch and one ATM in a moderate-income census tract in the AA. The alternative delivery systems in the Oklahoma City MSA AA remain consistent with that discussed at the institution level.

APPENDICES

INTERMEDIATE SMALL BANK PERFORMANCE CRITERIA

Lending Test

The Lending Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) by considering the following criteria:

- 1) The bank's loan-to-deposit ratio, adjusted for seasonal variation, and, as appropriate, other lending-related activities, such as loan originations for sale to the secondary markets, community development loans, or qualified investments;
- 2) The percentage of loans, and as appropriate, other lending-related activities located in the bank's assessment area(s);
- 3) The geographic distribution of the bank's loans;
- 4) The bank's record of lending to and, as appropriate, engaging in other lending-related activities for borrowers of different income levels and businesses and farms of different sizes; and
- 5) The bank's record of taking action, if warranted, in response to written complaints about its performance in helping to meet credit needs in its assessment area(s).

Community Development Test

The Community Development Test considers the following criteria:

- 1) The number and amount of community development loans;
- 2) The number and amount of qualified investments;
- 3) The extent to which the bank provides community development services; and
- 4) The bank's responsiveness through such activities to community development lending, investment, and service needs.

GLOSSARY

Aggregate Lending: The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

American Community Survey (ACS): A nationwide United States Census survey that produces demographic, social, housing, and economic estimates in the form of five year estimates based on population thresholds.

Area Median Income: The median family income for the MSA, if a person or geography is located in an MSA; or the statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

Assessment Area: A geographic area delineated by the bank under the requirements of the Community Reinvestment Act.

Census Tract: A small, relatively permanent statistical subdivision of a county or equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of statistical data. Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people. Census tract boundaries generally follow visible and identifiable features, but they may follow nonvisible legal boundaries in some instances. State and county boundaries always are census tract boundaries.

Combined Statistical Area (CSA): A combination of several adjacent metropolitan statistical areas or micropolitan statistical areas or a mix of the two, which are linked by economic ties.

Community Development: For loans, investments, and services to qualify as community development activities, their primary purpose must:

- (1) Support affordable housing for low- and moderate-income individuals;
- (2) Target community services toward low- and moderate-income individuals;
- (3) Promote economic development by financing small businesses or farms; or
- (4) Provide activities that revitalize or stabilize low- and moderate-income geographies, designated disaster areas, or distressed or underserved nonmetropolitan middle-income geographies.

Community Development Corporation (CDC): A CDC allows banks and holding companies to make equity type of investments in community development projects. Institution CDCs can develop innovative debt instruments or provide near-equity investments tailored to the development needs of the community. Institution CDCs are also tailored to their financial and marketing needs. A CDC may purchase, own, rehabilitate, construct, manage, and sell real property. Also, it may make equity or debt investments in development projects and in local businesses. The CDC activities are expected to directly benefit low- and moderate-income groups, and the investment dollars should not represent an undue risk on the banking organization.

Community Development Financial Institutions (CDFIs): CDFIs are private intermediaries (either for profit or nonprofit) with community development as their primary mission. A CDFI facilitates the flow of lending and investment capital into distressed communities and to individuals who have been unable to take advantage of the services offered by traditional financial institutions. Some basic types of CDFIs include community development banks, community development loan funds, community development credit unions, micro enterprise funds, and community development venture capital funds.

A certified CDFI must meet eligibility requirements. These requirements include the following:

- Having a primary mission of promoting community development;
- Serving an investment area or target population;
- Providing development services;
- Maintaining accountability to residents of its investment area or targeted population through representation on its governing board of directors, or by other means;
- Not constituting an agency or instrumentality of the United States, of any state or political subdivision of a state.

Community Development Loan: A loan that:

- (1) Has as its primary purpose community development; and
- (2) Except in the case of a wholesale or limited purpose institution:
 - (i) Has not been reported or collected by the institution or an affiliate for consideration in the institution's assessment area as a home mortgage, small business, small farm, or consumer loan, unless it is a multifamily dwelling loan (as described in Appendix A to Part 203 of this title); and
 - (ii) Benefits the institution's assessment area(s) or a broader statewide or regional area including the institution's assessment area(s).

Community Development Service: A service that:

- (1) Has as its primary purpose community development;
- (2) Is related to the provision of financial services; and
- (3) Has not been considered in the evaluation of the institution's retail banking services under § 345.24(d).

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

Core Based Statistical Area (CBSA): The county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties associated with the core. Metropolitan and Micropolitan Statistical Areas are the two categories of CBSAs.

Distressed Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as distressed if it is in a county that meets one or more of the following triggers:

- (1) An unemployment rate of at least 1.5 times the national average;
- (2) A poverty rate of 20 percent or more; or
- (3) A population loss of 10 percent or more between the previous and most recent decennial census or a net migration loss of 5 percent or more over the 5-year period preceding the most recent census.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family. Other family is further classified into “male householder” (a family with a male householder and no wife present) or “female householder” (a family with a female householder and no husband present).

FFIEC-Estimated Income Data: The Federal Financial Institutions Examination Council (FFIEC) issues annual estimates which update median family income from the metropolitan and nonmetropolitan areas. The FFIEC uses American Community Survey data and factors in information from other sources to arrive at an annual estimate that more closely reflects current economic conditions.

Full-Scope Review: A full-scope review is accomplished when examiners complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is analyzed considering performance context, quantitative factors (e.g, geographic distribution, borrower profile, and total number and dollar amount of investments), and qualitative factors (e.g, innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants; the amount of loan requested; and the disposition of the application (approved, denied, and withdrawn).

Home Mortgage Loans: Includes closed-end mortgage loans or open-end line of credits as defined in the HMDA regulation that are not an excluded transaction per the HMDA regulation.

Housing Unit: Includes a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters.

Limited-Scope Review: A limited scope review is accomplished when examiners do not complete all applicable interagency examination procedures for an assessment area.

Performance under applicable tests is often analyzed using only quantitative factors (e.g, geographic distribution, borrower profile, total number and dollar amount of investments, and branch distribution).

Low-Income: Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

Low Income Housing Tax Credit: The Low-Income Housing Tax Credit Program is a housing program contained within the Internal Revenue Code of 1986, as amended. It is administered by the U.S. Department of the Treasury and the Internal Revenue Service. The U.S. Treasury Department distributes low-income housing tax credits to housing credit agencies through the Internal Revenue Service. The housing agencies allocate tax credits on a competitive basis.

Developers who acquire, rehabilitate, or construct low-income rental housing may keep their tax credits. Or, they may sell them to corporations or investor groups, who, as owners of these properties, will be able to reduce their own federal tax payments. The credit can be claimed annually for ten consecutive years. For a project to be eligible, the developer must set aside a specific percentage of units for occupancy by low-income residents. The set-aside requirement remains throughout the compliance period, usually 30 years.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

Median Income: The median income divides the income distribution into two equal parts, one having incomes above the median and other having incomes below the median.

Metropolitan Division (MD): A county or group of counties within a CBSA that contain(s) an urbanized area with a population of at least 2.5 million. A MD is one or more main/secondary counties representing an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area (MSA): CBSA associated with at least one urbanized area having a population of at least 50,000. The MSA comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent in the case of a geography.

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent in the case of a geography.

Multi-family: Refers to a residential structure that contains five or more units.

Nonmetropolitan Area (also known as **non-MSA**): All areas outside of metropolitan areas. The definition of nonmetropolitan area is not consistent with the definition of rural areas. Urban and rural classifications cut across the other hierarchies. For example, there is generally urban and rural territory within metropolitan and nonmetropolitan areas.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Qualified Investment: A lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

Rated Area: A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

Rural Area: Territories, populations, and housing units that are not classified as urban.

Small Business Investment Company (SBIC): SBICs are privately-owned investment companies which are licensed and regulated by the Small Business Administration (SBA). SBICs provide long-term loans and/or venture capital to small firms. Because money for venture or risk investments is difficult for small firms to obtain, SBA provides assistance to SBICs to stimulate and supplement the flow of private equity and long-term loan funds to small companies. Venture capitalists participate in the SBIC program to supplement their own private capital with funds borrowed at favorable rates through SBA's guarantee of SBIC debentures. These SBIC debentures are then sold to private investors. An SBIC's success is linked to the growth and profitability of the companies that it finances. Therefore, some SBICs primarily assist businesses with significant growth potential, such as new firms in innovative industries. SBICs finance small firms by providing straight loans and/or equity-type investments. This kind of financing gives them partial ownership of those businesses and the possibility of sharing in the companies' profits as they grow and prosper.

Small Business Loan: A loan included in "loans to small businesses" as defined in the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$1 million or less and are either secured by nonfarm nonresidential properties or are classified as commercial and industrial loans.

Small Farm Loan: A loan included in "loans to small farms" as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$500,000 or less and are either secured by farmland, including farm residential and other improvements, or are classified as loans to finance agricultural production and other loans to farmers.

Underserved Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as underserved if it meets criteria for population size, density, and dispersion indicating the area's population is sufficiently small, thin, and distant from a population center that the tract is likely to have difficulty financing the fixed costs of meeting essential community needs.

Upper-Income: Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more in the case of a geography.

Urban Area: All territories, populations, and housing units in urbanized areas and in places of 2,500 or more persons outside urbanized areas. More specifically, "urban" consists of territory, persons, and housing units in places of 2,500 or more persons incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England states, New York, and Wisconsin).

"Urban" excludes the rural portions of "extended cities"; census designated place of 2,500 or more persons; and other territory, incorporated or unincorporated, including in urbanized areas.

SERVICES AND FEES

PRODUCTS AND SERVICES

Introduction

The welfare and growth of each team member is in direct proportion to the welfare and growth of the Bank. How successful we are in this depends on how serious we are in accepting responsibility for attracting new business and extending a kind of personal attention that encourages present and prospective customers to increase their business with the bank.

Remember personal growth and welfare can come only after we have been successful in obtaining new business and improving our service to our present customers. Be enthusiastic about your bank! *Know what you have to offer and how it serves the customer and be proud to ask for business.*

The purpose of this information is to provide each team member with the knowledge of each First Bank product and service to continue to provide exceptional customer service to each of our existing and potential customers.

Deposit Products

Types of Deposit Accounts

First Bank & Trust Co. offers both personal and commercial, or business, deposit accounts. The differences between these are the purpose of the account, the attributes of the account and the stipulations of the account, all of which will determine the disclosures that are required to be given on each account.

Deposit accounts may consist of non-interest bearing (demand deposit) checking accounts, and interest bearing (NOW) checking accounts, savings accounts, MMDA (money market) accounts, CD (certificate of deposit) accounts, and IRA (individual retirement) accounts.

Note: Anytime interest rates are discussed with at a customer or potential customer, the annual percentage yield (APY) must be disclosed in conjunction with the rate.

Certificates of Deposit & Individual Retirement Accounts

Note: Reg D requires early withdrawal penalties of at least seven days' interest, if the depositor makes a withdrawal from a CD "within six days after the date of deposit". The penalties used in this situation are mandatory and cannot be waived.

Exceptions to the six-day period early withdrawal penalties are:

- Death of the owner
- Judicial determination that the owner is incompetent
- Withdrawal of an automatically renewable CD within 10 days after its automatic renewal date

Certificates of Deposit (CDs)

1. Regular CDs

- \$1,000 minimum deposit
- Cannot add to until maturity
- Interest paid by check, deposited to checking or savings account or compounded
- Terms available:

1 Month	3 Month	6 Month	12 Month	18 Month
24 Month	30 Month	36 Month	48 Month	60 Month
- Auto-renewable
- Early withdrawal penalties:

90 day interest penalty	1 month – 12 month terms
180 day interest penalty	18 month – 30 month terms
365 day interest penalty	36 month – 60 month terms

2. 24 Month First Choice CD

- \$2,500 minimum deposit
- Can add to at any time (\$500 minimum)
- Cannot more than double the original face value of the CD
- APY is tied to the regular 24 Month CD rate
- APY can be adjusted 1 time during the 2 year term
- Interest paid by check, deposited to checking or savings account or compounded
- Auto-renewable
- 180 day interest penalty for early withdrawal

Individual Retirement Accounts (IRAs)

The IRA is funded at First Bank & Trust Co. by investing into one of the following IRA Certificates of Deposits:

1. Regular, ROTH, SEP or CESA IRA's

- \$1,000 minimum deposit
- Cannot add to until maturity
- Terms available:
 - 12 Month
 - 24 Month
 - 36 Month
 - 48 Month
 - 60 Month
- APY is tied to the corresponding regular CD APY
- Interest paid by check, deposited to checking or savings account or compounded
- Auto-renewable
- Early withdrawal penalties (same as regular CD's):

90 day interest penalty	12 month term
180 day interest penalty	24 month term
365 day interest penalty	36 month – 60 month terms

2. 18 Month Variable IRA

- Any IRA plan may have this product:
 - Regular
 - ROTH
 - SEP
 - CESA
- \$100 minimum deposit
- Can add to at anytime
- APY changes monthly
- APY is tied to FB&T's previous 6 Month CD rate plus 25 basis points
- Interest paid by check, deposited to checking or savings account or compounded
- Auto-renewable
- 180 day interest penalty for early withdrawal

3. 24 Month First Choice IRA

- Any IRA plan may have this product:
 - Regular
 - ROTH
 - SEP
 - CESA
- \$2,000 minimum deposit
- Can add to at any time (\$500 minimum)
- Cannot more than double the original face value of the CD
- APY is tied to the regular 24 Month CD rate
- APY can be adjusted 1 time during the 2 year term

- Interest paid by check, deposited to checking or savings account or compounded
- Auto-renewable
- 180 day interest penalty for early withdrawal

4. *60 Month Roth IRA*

- \$500 minimum deposit
- Can add to at anytime during the 5 year term (\$100 minimum)
- APY is tied to the FB&T 60 Month CD rate
- APY can be adjusted 2 times during the 5 year term
- Interest paid by check, deposited to checking or savings account or compounded
- Auto-renewable
- 365 day interest penalty for early withdrawal

Loan Products and Services

Types of Loans

There are three types of loans. They are consumer loans, real estate loans and commercial loans. Within these three types, First Bank & Trust offers a wide variety of products, as you will see in the following list.

Consumer Loans

Auto
Boat
R.V.
Motorcycle
Personal
Dealer Paper
Visa/MasterCard
Overdraft Protection

Real Estate Loans

First Mortgage
Additional Mortgage
Raw Land
Equi-Check (HELOC)

Commercial Loans

Equipment
Commercial Real Estate
Cattle/Livestock
Accounts Receivable

Consumer Loans

1. Auto, Boat, R.V. and Motorcycle Loans

- Rates vary based on credit history, banking relationship with FB&T, down payment, income, length of the loan, year of the vehicle.
- Term of these loans vary according to year model.

2. Personal Loans

- Basically for any reason - medical expenses, vacation, school, taxes..
- Personal loans can be secured or unsecured (signature loan)
- Secured loans can be secured by a CD or savings account
- Unsecured loans may require a co-maker or co-signer
- Rates vary by collateral and length of the loan

2. Dealer (Paper) Program

- The car is financed at the car dealership. These contracts are purchased by First Bank & Trust Co. The dealership faxes an application and a contract to the Bank. Then, a credit decision is made by the Bank.

4. *Overdraft Protection (ODP)*

- Coincides with a checking account
- Will advance in \$100 increments to cover insufficient checks to a depleted checking account balance
- The APR is variable (Prime plus 2.00%)

Example: Check Balance \$ 75
 Check \$130
 \$(55)
 ODP Advance \$100
 New Balance \$ 45

Real Estate Loans

1. *First Mortgage Primary Residence*

- Purchase of home
- Refinance home
- Policy dictates at least 10% down, however, exceptions can be made

2. *Additional Mortgage*

- Loan can be made for any purpose
- Interest may be tax deductible
- Sometimes termed “Home Equity Loan”

3. *Equi-Check (HELOC)*

- Revolving Line of Credit
- Secured by home
- “Credit card” on the house
- Loan may be advanced, paid down and advanced again
- Sometimes called Home Equity Line of Credit (HELOC)

5. *Raw Land*

- Loan may be made for up to 65% of purchase or appraisal

Fixed Rate Mortgage Loans

VA, FHA and Conventional mortgage loans available. Please call Fixed Rate Mortgage Department for details.

Commercial Loans

1. *Equipment*
2. *Commercial Real Estate Loans*
 - 80% of purchase or appraisal
 - Includes office building and rental property
3. *Cattle/Livestock*
 - Terms depend on type of cattle operation

Commercial Services

Cash Management

- Direct Deposit payroll – enter the employee financial information once and just change the dollar amount each time
- If their payroll software creates a NACHA file, no entry is necessary, just upload the file each time
- Initiate debits/credits from any of their accounts at other institutions
- Enter and submit domestic wire transfers
- Enter recurring ACH batches and wires so only minimal entry is needed
- Allows for dual security if needed
- Appoint multiple users each with unique login credentials
- Ability to designate each user’s capabilities such as accounts accessed, dollar amount, and time frame of access
- Setup Free of Charge
- ACH Origination Charges

Description	Charge Type	Fee
ACH Monthly Maintenance Fee	Monthly	\$25.00

The bank delineates two assessment areas. Our non-MSA assessment area which includes Stephens County, Jefferson County, Carter County, and Garvin County which are contiguous to each other, as well as Payne County, which is noncontiguous. Oklahoma County, Cleveland County, and Lincoln County are contiguous and these tracts are all part of the same MSA and therefore count as a second assessment area.

The bank operates 13 full service banking centers, 1 motor bank, and 14 ATM's, all of which are deposit taking, within the areas delineated as its assessment areas.

HMDA DISCLOSURE

HOME MORTGAGE DISCLOSURE ACT NOTICE

The HMDA data about our residential mortgage lending are available online for review. The data show geographic distribution of loans and applications; ethnicity, race, sex, age, and income of applicants and borrowers; and information about loan approvals and denials. HMDA data for many other financial institutions are also available online.

For more information, visit the Consumer Financial Protection Bureau's Web site (www.consumerfinance.gov/hmda).
